

MyIC
My Instant Communicator

iPad Starter Kit

Award winning Unified Communications for your iPad.

Everything you need to communicate and collaborate.

Watch the video:

MyIC with iPad2, Innovative tablet and software preinstalled on your iPad.

Multiparty business communications for Apple iPad. Secure conferencing and collaboration to any device inside and outside the company environment intuitive interface removes the complexity from multimedia communication and collaboration, providing a full featured client with Alcatel-Lucent's My Teamwork solution.

iPad Smart Cover. Designed for iPad. And vice versa.

The iPad Smart Cover falls perfectly into place and stays put to protect your iPad screen, yet doesn't add bulk to its thin, light design. Open the Smart Cover and your iPad wakes up instantly. Close it and your iPad goes to sleep automatically.

It comes in 10 bright colors — including five in rich, aniline-dyed Italian leather.

Video mirroring. What you do is what they see.

Video mirroring is new for iPad and for every app, web page, presentation, video, movie, or photo you want to show a big audience. Just plug in the Apple Digital AV Adapter or Apple VGA Adapter and your HDTV or projector becomes a bigger version of your iPad. One plug, that's it. Everyone sees what's on your display.
